

## HOW-TO FABRIC TUCKED WREATH

### MATERIALS

- FloraCraft® Foam Extruded Wreath: 8"
- 1 Yard Fabric of Your Choice
- White Tacky Glue
- FloraCraft® Foam Tool Kit – (Tuck Tool)
- Scissors
- Ruler

### INSTRUCTIONS

1. Cut the fabric into 3" squares. It takes about 90-3" squares to cover an 8 inch extruded foam wreath.
2. Use the tuck tool to push the center of the squares into the wreath about a ½". Continue tucking the fabric squares in about ½" apart to completely cover the wreath.
3. Tie a loop of ribbon around the top of the wreath for the hanger.
