

HOW-TO WATER BEAD CYLINDER

MATERIALS

- Clear Glass Cylinder
- Clear Water Beads
- Submersible Lights (Darice Moon Lights or Gerson LED Light Strings #36903)
- Floating Candle
- Ivy Garland

INSTRUCTIONS

1. Prepare water beads according to package instructions.
2. Place strand of lights in cylinder, leaving battery pack on outside.
3. Fill container with water beads, covering the light strand, and leaving room for the floating candle at the top.
4. Wrap a piece of ivy garland around the base of the cylinder.

Additional Suggestion: Place the cylinder on a round mirror to create a table centerpiece.
